

URBAN HORTICULTURE PRESENTS

SUMMER 1994 / Center for Urban Horticulture / Washington Park Arboretum / College of Forest Resources / University of Washington / Vol. 11, No. 3

HIGHLIGHTS THIS SUMMER:

David Stevens Lecture
Culinary Herb Symposium
Vancouver & Tacoma Tours
Plant Identification Courses

CENTER NEWS

From Director Clement Hamilton

IN MEMORY OF ELISABETH CAREY MILLER

One of the most important persons in the history of Seattle horticulture passed away this past March. Elisabeth Carey Miller led our community in developing many projects, including Freeway Park, planting the trees along the Lake Washington ship canal, and in Operation Triangle, which resulted in streetside plantings that help give Seattle its unique urban flavor. Her energy, vision, and generosity drove the creation of the Center for Urban Horticulture at the University of Washington, and we are proud that Betty was able to see the Center mature and develop its programs of teaching, research, and public service. She felt closest to the Elisabeth C. Miller Horticultural Library at CUH, which was started with a gift by her late husband, Pendleton Miller, and which has benefited from her advocacy and generosity throughout its history. Her garden has been a national model for a landscape with naturalistic appearance and function, unusual plant material, and aesthetic appeal. It is a challenge and an honor for faculty, staff, and students at the Center to continue striving toward the lofty goals set for us by Betty, and we will miss her.

RUSH TO GRADUATE

Winter quarter (March) saw the graduation of four students with master's degrees from the Center. Stephanie Allen, working with Assistant Professor Kern Ewing, compared the effects of different applications of compost material on plant growth. Mark Rains, also working with Ewing, grappled with questions of classifying vegetation on wetlands. Gael Varsi, advised by Associate Professor Clem Hamilton, studied the management of the Joseph Witt Winter Garden in the Arboretum and made recommendations to our staff. Niannian Chen, working with Hamilton, devised a naturalistic Chinese plant display for the Arboretum, representing the rich and varied flora of Mt. Emei.

AWARD TO URBAN FORESTRY PROJECT

Recent CUH graduate Elizabeth Walker was given a Merit Award presented jointly by the American Planning Association and the Planning Association of Washington for her master's project, entitled "A Citizen's Guide to Urban Forest Management in the Town of Clyde Hill." Congratulations to her and her faculty advisor Gordon Bradley.

PROGRESS IN THE CUH ECOLOGICAL RESEARCH AREA

Next time you visit the Center, take advantage of the long summer days and walk out to our Ecological Research Area, formerly the Montlake dump site. Assistant Professor Kern Ewing, his graduate students, our

grounds staff, and volunteers are working hard to make the 40-acre site a more naturally restored habitat that will attract and support an even greater diversity of birds and wildlife. One of the four ponds has had several native woody species planted in and around the water in order to improve the structure of the vegetation. Research on Idaho fescue (*Festuca idahoensis*) is seeking to determine what management strategy will best encourage the success of this native grass at the expense of the exotic herbs that now dominate the area.

LIBRARY NEWS

The library lost its founder and great supporter this past March. Elisabeth C. Miller left a legacy when, through her vision, generosity, and determination, she and her husband Pendleton financed the construction of the Miller Library in 1984. She also provided an endowment for some of its operating support. Books and gardens were among Betty's favorite things and she was knowledgeable about both. Thanks to all who sent remembrances of Betty to continue her goals for the library. Some memorial gifts and some of her favorite books will be displayed in the library this summer.

Receipt of a grant award of \$10,000 from the Northwest Horticultural Society has will make possible Monday evening hours during the 1994-95 fiscal year, plus an expansion of the lending collection. Thanks for this continued support.

VOLUNTEER NEWS

Our Third Annual CUH/WPA Volunteer & Staff Barbecue will be held Friday, September 9. Volunteers will receive more information and invitations soon.

Do you have some extra time in the summer? Thinking about volunteering? Or maybe you wonder what in the world we mean when we say that the Center for Urban Horticulture is dedicated to research, teaching, and public service concerning the selection, management and role of plants and ecosystems in the urban environment? Come join us as a volunteer and we'll provide answers to these and other questions!

With public education and service as a major component of the mission of the Arboretum and Center, volunteers are a vital and important part of our operations. Volunteers lead tours, collect and prepare plant specimens, answer telephones, work in the library, monitor courses and lectures—a wide range of activities reflecting the scope of public education and service. Volunteers also assist in plant management and care. Besides being productive and interesting work, there are other benefits associated with volunteering. You meet and work with faculty, staff and students, earn credits towards CUH courses and events, and have the opportunity to attend special volunteer tours, lectures and recreational events.

Interested in joining us? Call 685-8033 and request a Volunteer Handbook. Also, remember to mark your calendars for the Barbecue!

TELEPHONES

Center for Urban Horticulture:
(206) 685-8033, 9 a.m. to 5 p.m., weekdays; Fax- (206) 685-2692

Washington Park Arboretum:
(206) 543-8800, 10 a.m. to 4 p.m., weekdays, Noon to 4 p.m., weekends

NORTHWEST HORTICULTURAL SOCIETY NEWS

Call the Northwest Horticultural Society office at 527-1794 for more information on the following events:

Christopher Woods, Director of Chanticleer Nursery in Wayne, Pennsylvania, will present the lecture "A Passion for Perennials" on Monday, June 27, 7:30 p.m., in NHS Hall. Fee is \$5 for NHS members, \$7 for non-members.

Madison Cox, Author of *Artists' Gardens* and *Private Gardens of Paris*, will present the lecture "Artists' Gardens" at 7:30 p.m., Tuesday, September 22, NHS Hall. Fee is \$5 for NHS members, \$7 for non-members.

PLANT SALE! The Annual Fall Plant Sale will be held at CUH on **Friday, September 23 and Saturday, September 24**. This is your last chance of the season to purchase beautiful, exotic, and desired plant materials. Join us!

The Center for Urban Horticulture is dedicated to teaching, research and public service in urban horticulture, urban forestry and urban ecology.

UW COLLEGE OF FOREST RESOURCES CONTINUING AND PUBLIC EDUCATION STAFF:

Dave Stockdale, Public Education Director, CUH/CFR
Jean Robins, Program Coordinator
Becky Johnson, Program Coordinator
Beverly Gonyea, Continuing Education Manager, CFR

REGISTRATION FORM

Urban Horticulture Courses

COURSE	FEE	STUDENT NAME(S)	TOTAL
			\$

CHECK ENCLOSED FOR \$_____

Checks payable to University of Washington. No bank cards. Registrations filled in order received. Limited class enrollment; classes fill rapidly, so register early. Portion of fee may cover refreshments and speaker expenses.

Refunds: Requests must be in writing or in person. Requests received 7 days or less from first class meeting have a \$3.00 handling fee deducted. No refunds after the first class meeting.

NAME _____ Phone: Day _____ Evening _____

ADDRESS _____
Street City State ZIP Code

Mail payment and registration to:
Urban Horticulture Courses, GF-15
University of Washington
Seattle, Washington 98195

To request disability accommodation contact the Office of the ADA Coordinator, at least ten days in advance of an event: 543-6450 (voice) 543-6452 (TDD); 685-3885 (FAX) access@u.washington.edu (E-mail)

PUBLIC LECTURE SERIES

NEW POLICY: Pre-registration required for the *Practical NW Gardening Guide*, *Plant Enthusiast*, and *Plants & Gardens Of The World* public lecture series. No pre-registration required for the *CUH Garden Talks* or *UW Brown Bags* free lecture series.

NW PRACTICAL GARDENING GUIDE

Practical gardening ideas for beginning and intermediate level home gardeners. Planned and presented in cooperation with WSU Master Gardeners.

AN EVERLASTING FLOWER GARDEN

Thursday, July 21
7:30 to 8:30 p.m., CUH
\$2, pre-registration required

Many of your beautiful border bloomers can also provide indoor enjoyment for many additional months. Learn how to grow, harvest, and preserve a variety of everlasting flowers for arrangements or crafts from a WSU Master Gardener.

FALL GARDEN CARE

Thursday, September 15
7:30 to 8:30 p.m., CUH
\$2, pre-registration required

As the growing season winds down, do you know what to do to ensure continued success in your garden? A WSU Master Gardener shares tips for maintenance, clean-up, and winterizing your garden beds.

UW BROWN BAG LECTURES ARE LISTED ON THE LAST PAGE OF THIS NEWSLETTER!

Parking at CUH is in a University parking lot. Individuals are responsible for their own \$1.50 parking fees unless otherwise noted. Tickets may be purchased (quarters only) in the two red ticket spitters in the parking lot.

PLANTS & GARDENS OF THE WORLD

Unique combination of travelogue, and plant and people cultural information.

GARDENS OF NORTHERN CALIFORNIA

Monday, July 18
7 to 8:30 p.m., CUH
\$3, pre-registration required

Northern California is home to many outstanding public and private gardens. Join us for highlights of such public and private sites as Filoli, UC-Berkeley Botanical Garden, Regional Parks Botanical Garden, Strybing Arboretum, Japanese Garden, Quarryhill Botanical Garden, UC-Santa Cruz Botanical Garden, Ruth Bancroft Garden, Sally McBride Garden, and other delights!

PLANT ENTHUSIAST

Regional experts present in-depth slide lectures on specific plant topics.

UP AGAINST THE WALL

Wednesday, July 13
7:30 to 9 p.m., CUH
\$2, pre-registration required

Explore a variety of vines, climbers, and other "wall" plants with Gayle Walters, garden manager at Wallingford Garden Spot. Learn how to select, plant, support, train and maintain these plants for maximum effect. Vertical spaces provide many opportunities for creative planting!

CUH GARDEN TALKS

General interest tours highlighting the gardens and facilities of CUH.

GARDENS OF CUH

Wednesday, July 27
12:10 to 12:50 p.m., CUH
FREE; no pre-registration required

The Courtyard Garden displays plants suitable for the urban sites, including many grasses and grass-like specimens. The Entry Garden displays a tapestry of shade tolerant ground covers. Come explore both with CUH staff.

CUH GREENHOUSE TOUR

Wednesday, August 24
12:10 to 12:50 p.m., CUH
FREE; no pre-registration required

CUH's greenhouses are used for a variety of research projects. Greenhouse & Grounds Supervisor Fred Hoyt explains their operation and discusses current research activities. A short tour of the CUH Nursery will be included.

ECOLOGICAL RESEARCH AREA

Wednesday, September 28
12:10 to 12:50 p.m., CUH
FREE; no pre-registration required

CUH manages the Ecological Research Area behind the Center and along Lake Washington. Learn about plant community restoration efforts, weed management strategies, and more in this living laboratory.

URBAN HORTICULTURE COURSES

FUNDAMENTALS OF PLANT RECOGNITION

Dates & Times: Two-part course; Tuesday, June 28 and Thursday, June 30, 7 to 9 p.m. each night
Instructors: Dr. Clement Hamilton, UW Associate Professor of Horticultural Taxonomy, and Cynthia Gilbert, CUH Ph.D. Student
Fee: \$10

We strongly recommend that anyone planning to take any plant identification or selection course now or in the future also enroll in this course.

Learn the descriptive terminology of plant parts and how to communicate correctly, both verbally and in writing, using Latin plant names. Study the biological basis for classification of plants in nature and in cultivation.

SUMMER PRUNING

Dates & Times: Two-part course; Wednesday, July 6, 7 to 9 p.m., and Saturday, July 9, 9 to 11 a.m.
Instructor: Cass Turnbull, Landscape Maintenance Professional, Cass Turnbull Landscaping
Fee: \$20

Thought you were done for the year? Actually, summer is an excellent time (even the preferred time) for pruning certain plants- like those that send out watersprouts, or bleed too much in the spring. Fruit trees, spring-flowering shrubs and other plants will benefit from summer pruning. Learn how, when and which plants to prune this summer.

DRIP IRRIGATION MADE EASY

Date & Time: Thursday, July 7, 6:30 to 9 p.m.
Instructor: Howard Stenn, Landscape Consultant, Stenn Design
Fee: \$15

Yes, you really can design and install an efficient, inexpensive drip irrigation system at home! First, learn how to design a system appropriate to your unique garden areas and how to select the components you will use. Next, see a demonstration of how to assemble and work with the components of your system. Finally, review how to schedule and use your new system to maintain your garden in the most beneficial and economical manner.

SMALL TREES: Identification, Selection & Management

Dates & Times: Three-part course; Tuesday, July 12, and Thursday, July 14, and Tuesday, July 19, 6:30 to 8:30 p.m. each night
Instructor: Scott Conner, Consultant Horticulturist, Conner Enterprises
Fee: \$35

There are many small, attractive trees suitable for the urban landscape. Study over 25 recommended urban trees in this combination classroom and field trip course. Emphasis will be placed on plant identification, selection, placement, function, and management within the landscape.

BROAD-LEAFED EVERGREENS: Identification, Selection & Management

Dates & Times: Three-part course; Tuesday, August 9, and Thursday, August 11, and Tuesday, August 16, 6:30 to 8:30 p.m. each night
Instructor: Scott Conner, Consultant Horticulturist, Conner Enterprises
Fee: \$35

The extensive palette of broad-leafed evergreens available in the Northwest helps us maintain the lush green environment associated with our region. Study over 25 plants in this combination classroom and field trip course. Emphasis will be placed on plant identification, selection, placement, function, and management within the urban landscape.

SEEDY BUSINESS

Date & Time: Tuesday, September 20, 7 to 9 p.m.
Instructor: Tracy Omar, Plant Registrar, Washington Park Arboretum
Fee: \$10

Why not save (and even share) seeds from your garden and landscape plants at home? Learn all about seed saving, including collection timing, harvesting methods, cleaning, processing, stratification needs, storage, and other concerns. Get a head start on spring while saving money AND those special plants!

Parking at CUH is in a University parking lot. Individuals are responsible for their own \$1.50 parking fees unless otherwise noted. Tickets may be purchased (quarters only) in the red ticket spitters located at either end of the CUH parking lot.

SPECIAL EVENTS & TOURS

Herbal Renaissance: A Culinary Herb Symposium

Saturday, July 23, 9 a.m. to 3 p.m., CUH

\$45, pre-registration required, size limited; price includes lunch, tea sampling, and parking fee

GROWING CULINARY HERBS: Alison Troutman, owner and manager of Cascade Cuts, a wholesale herb growing business in Bellingham, will share suggestions for successfully growing a wide variety of culinary herbs at home. She will discuss plant culture, pest management concerns, overwintering techniques and more. She will also preview unique, attractive and tasty new plants.

MAKING HERBAL TEAS, VINEGARS, OILS, AND BUTTERS: Patti Chambers is the Education Director for the Herb Cottage in Redmond. She will demonstrate the techniques for making herbal oils, vinegars, teas, and butters at home—and the results will become door prizes! Our morning break will feature a tasting of a variety of herb teas prepared by Patti.

COOKING WITH HERBS: Peter Kairis, of Peter Kairis Catering, offers suggestions for simple, easy herb combinations that will enhance a variety of everyday foods. Peter will also be available to answer questions about our many herbal lunch delicacies, which will include herb and spinach stuffed Dover sole with lemon thyme & caper sauce, and chicken loaf with fresh salsa.

KITCHEN HERB GARDEN DESIGN: Robert Nelson, retail manager of J. C. Mum & Company Greenhouses in Kent, shares ideas on how to design and install a kitchen herb garden, or incorporate your culinary herbs into your existing home landscape. He will suggest specific herbs for use in providing form, color, and texture to your garden.

ENGLISH GARDENS & LANDSCAPES—THE AMERICAN INFLUENCE

Wednesday, August 17, 7 to 9 p.m., CUH

\$10, pre-registration required, size limited; price includes parking fee

Join us for this very special lecture by DAVID STEVENS—the internationally recognized designer, instructor, and television personality from Buckingham, England. David will present a slide lecture illustrating how American gardens, in particular West Coast American gardens, have played a very strong role in influencing garden and landscape design philosophies and concepts in Great Britain. David is well-known to Northwest audiences as the author of 14 books, and from his recent appearance as a judge at our own Northwest Flower & Garden Show. As a designer, he has twice earned best garden honors at the Chelsea Flower Show, and has earned similar honors at other events. He appears regularly on BBC television, and in 1993 was offered and accepted the first Chair and Professorship in Garden Design at Middlesex University. Join us for this very special evening!

VANCOUVER GARDEN TOUR

Date & Time: Friday, July 15, 8 a.m. to 6 p.m.

Fee: \$35; fee includes transportation, garden entry fee, does not include sack lunch. Tour Is Limited To 24 Persons

Enjoy both private and public gardens of Vancouver. One private garden addresses the challenges of a variety of site conditions—from a naturally wooded area, to a mossy rock outcropping, to an exposed slope. The other private site demonstrates the gardening possibilities within a very small space that is planted for bloom. We will also visit the UBC Columbia Botanical Garden to enjoy their large, colorful Perennial Border and extensive Rock Garden.

TACOMA TREASURES TOUR

Date & Time: Friday, July 29, 9 a.m. to 4 p.m.

Fee: \$25; includes transportation, garden entry fees, does not include sack lunch. Tour Is Limited To 24 Persons

Join us for this tour of Tacoma treasures! First we'll visit extraordinary Lakewold Gardens with its lush forest elements, sedate sprawling lawns, colorful formal beds, parterres, knot gardens, and more. Next we visit the Seymour Botanical Conservatory in Wright Park. Then it's on to Pt. Defiance Park, where we will have a guided tour of the Northwest Native Garden in the park—the most extensive garden of native plants in our region.

WASHINGTON PARK ARBORETUM NEWS

From Director John A. Wott

BULB SALE

The annual Arboretum Foundation Bulb Sale will be held Sunday, October 2, 11 a.m. to 5 p.m., and Monday, October 3, 10 a.m. to Noon, in and around the Graham Visitors Center. This is a great opportunity to find many unusual bulbs from European and American sources. There will also be a variety of other donated special plants available. For information, call the Foundation office at 325-4510.

SAVING OUR PONDS

The year-end appeal conducted by the Arboretum Foundation raised over \$53,000 towards cleaning and repairing 4 ponds in the Woodland Garden and Rhododendron Glen. University staffers Christina Pfeiffer, Tracy Omar and Barbara Selemon worked on this project with Pfeiffer serving as the project manager. John Candy, Department of Parks and Recreation Arboretum Senior Gardener and other city officials were involved in the review process. The contract has been held by the Arboretum Foundation, and Sonneman Design, Inc., was selected for the work. The woodland Garden ponds were cleaned late this spring, while work on the other ponds is expected to continue until late fall.

IMS GRANT BENEFITS MAPLES

The Arboretum was the recipient of a \$25,000 Institute of Museum Services Conservation Grant for the renovation of our Japanese maple collection. We have the largest collection of Japanese maples of any US public garden. Most of these trees are one-of-a-kind and many are over forty years old. We will re-propagate important collection trees as well as add in new cultivars. Most of the trees are located in the Woodland Garden where increasing attention will be given to

assessing the entire area for traffic circulation and over-all plant maintenance and design needs. In May, Polly Al Elid began the design review process. This summer, Iain Robertson, who has had a long-time tie with the Arboretum, will also be working on this project. Our goal is to revitalize the entire Woodland Garden.

BUILDING MANAGER

Lisa Frolund, who had been successfully managing the Graham Visitors Center the past several months, left that position in May to pursue other activities. Lisa will be missed by all the staff and volunteers. This position will be reoriented in the future to also include some other aspects of needed Arboretum duties.

ARBORETUM FOUNDATION STUDY GROUPS

One "perk" of membership in the Arboretum Foundation is the opportunity to participate in one of the monthly study groups. Current groups specialize in rhododendrons, Ikebana, Northwest natives, plant propagation, rock garden plants, perennials, and ornamental trees and shrubs. If you are interested, please contact the Arboretum Foundation office at 325-4510.

GUIDE/VOLUNTEER PROGRAM

A special program for all Arboretum guides and volunteers will be held on Wednesday, September 21, 10 a.m. to Noon. Tracy Omar and Christina Pfeiffer will lead a tour and discussion of our pond renovation project. Call the Arboretum at 543-8800 for information.

SUNDAYS AT ONE TOURS

Our FREE Sundays at One Tours continue to leave from the Graham Visitors Center every week. Experienced Volunteer Guides lead these hour long walks through a different

part of the Arboretum every week. Bring your walking shoes, your family, your out-of-town guests and join us!

GUIDES/VOLUNTEERS NEEDED

We are recruiting new volunteers for a variety of programs beginning this fall. Persons interested in helping with tours and children's programs are desired. Call the Arboretum Reception Desk at 543-8800 and ask for a sign-up form.

TOURS/SAPPLINGS PROGRAMS

Tours and Saplings programs were managed on a temporary basis this past spring by Nancy Hamilton. We will be evaluating these programs this summer before setting up our fall activities. Many thanks to Nancy for guiding us during her short tenure.

SUMMER LECTURE: GETTING TO KNOW YOUR ARBORETUM

WHY OUR PONDS ARE SO SPECIAL

Wednesday, September 28, 10 a.m.
FEE: \$5, register at the Graham Visitors Center prior to this program

Arboretum staff will offer this look at the role, management needs, and legacy of WPA ponds. Be prepared to spend time on the grounds..

The Washington Park Arboretum is a living museum of plants from around the world which can be grown in the Pacific Northwest. The Arboretum is dedicated to education, conservation, research, and display.

UNIVERSITY BROWN BAGS

General interest horticulture and forestry talks *for University faculty, staff, & students.*

MEDICINAL HERB GARDEN WALK, Pt. 1

Wednesday, July 6
12:10 to 12:50 p.m., Free
Meet at the Medicinal Herb Garden

The UW Medicinal Herb Garden continues its renovation and renewal. Join a Volunteer Garden Guide and discover unusual and useful plants in this campus treasure.

MEDICINAL HERB GARDEN WALK, Pt. 2

Wednesday, July 20
12:10 to 12:50 p.m., Free
Meet at the Medicinal Herb Garden

There are far too many interesting plants for just one visit- so we return and continue our study of this unique garden. Learn about common and uncommon medicinals.

CAMPUS TREE WALK

Wednesday, August 3
12:10 to 12:50 p.m., Free
Meet at the Red Square entrance to Suzzallo Library

CUH Public Education Intern Dana Kirley and Education Director Dave Stockdale lead this walking tour of specimen trees on campus. Learn how to identify and use these trees.

GROUNDCOVER WALK

Wednesday, September 7
12:10 to 12:50 p.m., Free
Meet at the Red Square entrance to Suzzallo Library

CUH Graduate Student Mignonne Partington leads this walking tour of interesting and unique groundcovers. Learn to identify and how to use these plants at home.
